## conVerd® Wipe Clean board wide format

Rigid Paper Board

conVerd® Wipe Clean Board is an environmentally responsible 100% paper-based rigid board that contains a minimum of 10% post consumer content. This rigid paper board is a fully recyclable alternative for structural signage in the wide format marketplace. conVerd® Wipe Clean Board offers a dimensionally stable and rigid surface for indoor and short term outdoor point-of-purchase and signage applications. Even though made of 100% paper, this board allows smudges and marks associated with general installation to be "wiped clean" with a simple soap and water mixture!

Unlike low quality boards made of bleached OCC (old corrugated cardboard) that will warp and compromise the look of your signage, this board is moisture-resistant and maintains superior stability during typical changes in temperature and humidity that tend to affect other rigid medias.

### Cutting Recommendations:

conVerd Board® is designed to be easily cut using a die, guillotine, and many other market CNC routers using i-cut.

### Easy to Install:

Use with grommet, frames, easel backs, double-sided tape, Velcro® or suction cups. Suitable for framing because it is acid free.

### We all know paper prints better than plastic!

It's also more widely recycled. Our paper-based portfolio provides a sustainable option, with many post-consumer options available as well.

A BRIGHTER SHADE OF GREEN

### APPLICATIONS:

- Hanging signage
- Indoor POP
- Menu boards
- Standees
- Window signs
- Trade show signage
- Displays
- Wing cards
- Danglers
- Custom package

### PRINTABILITY:

- UV
- Offset / Screen
