Envi Wallgraphics Media

High Performance Digital Wallcovering
Pre-pasted, PVC-Free, Strippable

Envi Wallgraphics offer a renewable
fiber-based 10% PCW alternative to
vinyl for walls, windows and other
rigid surfaces in the home and in
commercial settings/environments.

Envi Wallcovering meets the strict
California 01350 standards for
indoor air quality - a prerequisite
for LEED credit qualification, and
carries a class "A" fire rating based
on ASTM E-84 standard testing for
smoke generation and flame spread.

Specify Envi Wallgraphics when
looking to boldly enhance a small
space or an entire establishment in
an environmentally conscious way.

Features and Benefits

• **Performance and Aesthetics**

  - Bright white for beautiful image reproduction
  - Ultra-smooth print surface optimized for inkjet printing with UV and latex inks
  - Quick dry print surface for convenience and enhanced productivity
  - Matte finishe to minimize glare
  - Polymer reinforced for strength and durability
  - Washable/scrubbable surface perfect for light to moderate traffic areas
  - Meets California 01350 standards for indoor air quality
  - Breathable to reduce mold and mildew
  - Prepasted - requiring only water to activate the adhesive
  - Class "A" rating for both smoke generation and flame spread by the ASTM E-84 standard
  - Complies with REACH, Lacey Act, CPSIA and RohS requirements

• **Made with the environment in mind**

  - The FSC logo ensures responsible use of forest resources certified by a third party
  - Made with third-party Green-e® certified Wind Power Renewable Energy Certificates
  - Manufactured Carbon Neutral with Verified Emission Reductions certified under the Climate Action Reserve Protocol
  - Manufactured Process Chlorine Free
  - Manufactured under an ISO 14001:2004 Certified Environmental Management System

Installation instructions and warranty are available at www.mpm.com/enviwallgraphics.
