

DigiCompetition Latex Performance

Our **DigiCompetition** is a lightweight knit polyester fabric designed to provide outstanding color consistency and excellent image sharpness when printed. This textile is wrinkle-resistant and engineered especially for printers who demand a high performance yet competitive display fabric. **DigiCompetition** is manufactured with a print receptive treatment that displays a superior color range after imaging.

This 100% polyester knitted fabric meets NFPA 701 FR specifications. **DigiCompetition** features a uniquely formulated, proprietary coating to enhance performance and ink fastness of the graphics when printed with Latex Inks. This versatile lightweight knit product performs the same as traditional heavyweight fabrics offering excellent coverage, softness, stretch and printability. **DigiCompetition** is excellent for applications including a variety of frame systems, tradeshow graphics, retail displays and interior decor.
