Top Value Fabrics

DigiFascination Latex Performance

Our **DigiFascination** is a lightweight, sheer, woven polyester fabric designed to provide outstanding color consistency and excellent image sharpness when printed. This textile is wrinkle-resistant and engineered especially for printers who demand a high performance sheer fabric. **DigiFascination** is manufactured with a print receptive treatment that displays a superior color range after imaging.

This 100% polyester knitted fabric meets NFPA 701 FR specifications. **DigiFascination** features a uniquely formulated, proprietary coating to enhance performance and ink fastness of the graphics when printed with Latex Inks. This versatile lightweight woven product performs with excellent softness, stretch and printability. **DigiFascination** is excellent for applications including flags, banner, POP, retail displays and interior decor.
