digiscape® wide format

Latex-saturated, Wet-strength Wallcovering Print Media

DigiScape® is a latex-saturated, non-woven wallcovering print media reinforced with synthetic fibers for strength and durability. DigiScape® is a superior alternative to PVC wall decor materials. Its environmentally responsible construction supports two LEED credits. The product is dimensionally stable and tear-resistant with a bright white surface. Available for both paste and pressure-sensitive (PSA) applications.

Available Options:

DigiScape® Smooth: Robust 9pt or 17pt material manufactured with a smooth matte print surface to reduce and improve ink adhesion.

DigiScape® Canvas: Robust 17pt material manufactured with a canvas-like texture to hide imperfections as well as to give the appearance of a true textile wallcovering.

DigiScape® II: A robust 17pt material that is laminated to a non-woven PET back. This durable construction exceeds the break and tear strength of the Type II commercial wallcovering specification.

DigiScape® Sand Pebble: DigiScape II is a 17pt material that is laminated to a non-woven PET back. This durable alternative to PVC exceeds the break and tear strength of the Type II Commercial wall covering specification. The new Sand Pebble finish provides a highly tactile backdrop that adds visual interest to display graphics

DigiScape® Stick-R: Removable PSA with a release liner for easy peel and stick application. The product has a slight weave texture matte finish for added interest to the final print and to help cover surface imperfections.

We all know paper prints better than plastic!

It's also more widely recycled. Our paper-based portfolio provides a sustainable option, with many post-consumer options available as well.

APPLICATIONS:

Mural
Counter wraps
Wallcovering
Wall Decor

PRINTABILITY:

Eco-solvent / Solvent
Latex
UV
Offset / Screen

PRODUCT SAFETY:

PVC FREE

Contains No - IARC
Group 1 Carcinogens

Contains No - OSHA Regulated
Toxic metal or Carcinogens

Contains No - USEPA Toxic
Release Inventory Substances

Complies with European
REACH Standards.

ASTM E-84 Class A approved
(Not Type II).
