FLEXIBLE & RIGID PRINT MEDIA

duoboard® 50 pt. wide format

High Integrity, C2S Duplex Board

DuoBoard® is a high integrity coated 2 side duplex board manufactured with cellulose fibers and pressed into a smooth, dense rigid board. Both sides are finished with an identical smooth, satin print surface, providing superior printability and dimensional stability. The product is easy to cut and assemble and can be used for most indoor point-of-sale and display graphics applications.

DuoBoard® is an environmentally responsible recyclable alternative to tyrene and expanded closed-cell PVC based board medias.

Cutting Recommendations:

DuoBoard® is designed to be easily cut using a die, guillotine, and many market CNC routers using i-cut.

APPLICATIONS:

- Indoor POP
- Aisle markers
- Display toppers
- Structural signage
- Wing cards
- End caps

PRINTABILITY:

- Flatbed
- UV
- Screen

We all know paper prints better than plastic!

It's also more widely recycled. Our paper-based portfolio provides a sustainable option, with many post-consumer options available as well.
