

Interior Mount Window Perforated Window Film (INSIDE-WPERF60) offers a one way, 60/40 perforated film that allows graphics to be easily mounted to the inside of windows, in a single step. The **print side is the adhesive side.**

INSIDE-WPERF60 has a unique low-tack adhesive that is removable and repositionable and easy to install. INSIDE-WPERF60 has a polyester liner to ensure a smooth application and prevent tunneling and curling during installation.

Features

- Affordable, complete solution for interior mounted perforated window film
- Removable and Repositionable
- Interior mount graphics are protected from the elements and vandalism

Applications

- Interior only glass windows
- Short to intermediate term applications (up to 2 years)

Printer Compatibility

Mild-Solvent and Eco-Solvent
