## Reach new heights with ColorCheck

Exclusive for ONYX Thrive is ColorCheck: a new process control tool for users to prove color accuracy, consistency and conformance to standards including G7 and Fogra.

Easily match your customer brand-color needs consistently over time across all your devices and build repeat business.

*"ONYX Thrive has had a large impact on our business. With as much equipment as we have running at any one time, Thrive has been instrumental in keeping us fast, reliable and consistent."*

- Aaron Holland, DSR.

## Textile included in ONYX Thrive

With applications into decor, decal printing and soft-signage, ONYX Thrive allows users intuitive control to create patterns with PDF or any raster images and automated cutting workflows.
